Fair Park High School
Shreveport, LA.

History Of Fair Park High

Construction of Fair Park began in the spring of 1928 and its completion that fall made possible the opening of the school for the 1928-1929 session.

The original building was constructed to accommodate 500 students at a cost of \$481,000.

Mr. J. Ward was appointed principal of the new school in 1928, and served in this position until his death in 1937.

By 1931 Fair Park had grown so much that it became necessary to add two new wings to the original building. One wing was used for classrooms while the other provided the school with a greatly needed auditorium.

During 1937-1938 the annex, consisting of four classrooms, was added.

Mr. Edward Lee Alberson was named principal of Fair Park in 1937, and served the school until his retirement in the spring of 1957.

In 1956 an extensive remodeling program was undertaken with completion of a new gymnasium-industrial arts area and a music building being added to the size of the school plant.

Mr. E. H. Herron, who for a number of years had served as assistant principal, was appointed principal in 1957, and served in this capacity until his death in the early spring of 1960.

Dr. Earl A. McKenzie, former teacher, principal, and supervisor, was appointed principal in 1960, and left Fair Park when he was named assistant to the Superintendent of Caddo Parish Schools on August 15, 1966.

Mr. B. H. Brantly, former teacher

and assistant principal, was appointed principal in 1966, and served until his resignation January 25, 1971, to take a position on the staff of Northeast Louisiana University.

Mr. Clem Henderson, former teacher, coach, and assistant principal, was named principal of Fair Park in January, 1971 and served until he took a leave in 1976.

During the summer of 1971, forty-three years after the original plant was constructed, Fair Park again received a "face-lifting". Renovation began at the close of school in May, 1971, at a cost of \$575,000. When school opened in September almost all construction was completed.

Metal windows were installed, and the exterior surface of the building was sandblasted and wa-

terproofed. The administrative offices were renovated, enlarged, centrally heated, and air conditioned. The counselors' offices were relocated, enlarged, and air conditioned. Biology Classrooms were moved from first floor to the third floor to create a centralized science department. The library was moved from third floor to first to provide a more convenient location, refurnished, carpeted, and redecorated. A small addition adjacent to the new media center provides space for a professional library for use by faculty members during their unencumbered periods. Two large additional classrooms were made available in the gymnasium-industrial arts area when the career center opened. These were assigned for beginning typewriting classes. The interior of the building was repaired, painted and new boilers were installed to replace the old ones that were antiquated and inadequate. The teachers' lounge area was refurnished, redecorated, and carpeted.

Mr. Johnny Bilberry, former teacher, coach and assistant principal, was named acting principal for one year in 1976 during Mr. Henderson's leave. He was appointed principal during the Summer 1977 and left Fair Park when he was named Supervisor of Health and Physical Education in Caddo Parish in the Fall 1977.

Our present principal, Mr. Roland Antoine, Sr., former teacher, coach, and assistant principal was appointed to the position during the Fall, October, 1977. During his administration a medical careers program has been added to the curriculum.

Even though the Fair Park plant is fifty-four years old, it is still a very functional plant that continues to serve the school system well as it has for so many years.

FEATURES

Mr. Fair Park

Darrell Small
Pisces

Son of Mr. & Mrs. Pearson and is the President of the Student Council, National Honor Society, Principal's Honor Roll, Co-Captain of the Football Team and is the recipient of the Optimist Club Scholarship. Darrell also received second place in the parish Science Fair. During the summer of '82 he attended a Health and Science Course at Southern University. Darrell also participated in the Concert Choir and Indians for Christ. His hobbies include dancing, singing, being with people and taking active parts in all endeavors.

Miss Fair Park

Sharon Mosley
Taurus

Daughter of Mr. & Mrs. Foster Bryant, a member of the National Honor Society, Future Business Leaders of America, a Majorette and the 1982 Homecoming Queen. Sharon was the First Place winner of the Science Fair Project at Fair Park. After graduation she plans to attend Grambling State University. Her hobbies include dancing, reading and singing.

Western Electric's Shreveport Works plays a major role in helping keep people in touch nationwide. It annually produces over half of the new telephones used in the Bell System. Established in 1965 in Southwest Shreveport, Western Electric has experienced impressive growth, being, for the past ten years, Louisiana's second largest manufacturing facility. Over 6,700 employees work daily to provide high quality telephone sets and related equipment for use in the world's finest telecommunications network.
